Reli-e-Marg offers a whole spectrum of software solutions for the Automobile Industry. These applications use proven technologies (GIS/GPS/GPRS) and frameworks (.NET/SVG) for effective management of Garages and Workshops, Vehicle Sales and Fleet/Logistics.

Effective Vehicle Sales solutions for securing efficient and profitable businesses

Features

- ✚ A quick and convenient program which allows the user to both prepare estimates and print invoices from a single screen.
- ✚ Estimates are stored for future use so they can easily be retrieved and reviewed. The estimates can either be printed as an invoice or work order.
- ✚ Part and service pricing is automatically calculated as well as the final total of the invoice. This saves time from having to manually calculate the invoice and prevents calculation errors.
- ✚ The inventory is automatically adjusted to reflect the parts used for each invoice.

Modules

- ✚ Administrative Settings
- ✚ Grant Support
- ✚ Configuration
- ✚ Deals
- ✚ Finance
- ✚ Price Calculation
